# Our Green Policy

## Being Green, Living Green

**Marigolds and Onions Catering & Event Production** continually demonstrates our commitment to the environment through our day to day actions. Our goal is to minimize waste & pollution while engaging in the use of local, fresh, seasonal and passionately cultivated products whenever possible. We believe our continued efforts and behaviour will contribute to the sustenance of our environment.

Just a few of our daily steps

- We firmly believe in making choices to use the most environmentally friendly products available for all of our packaging and disposable items. We try to choose compostable items or items made from the highest level of post-consumer recycled content available. We are always looking for the newest innovations in packaging to ensure we provide the most ecologically friendly alternative in the market.
  - Our individual cutlery and plates are made from compostable plant starches.
  - Individual meal trays are made with a compostable plant starch base with a lid made from recycled plastic.
  - Other plastic items are chosen in order to maximize the post-consumer content of recycled plastic. We believe that by choosing to maximize both the content and quantity of recycled products we use, we hope to encourage the growth of recycling.
- We serve only salmon from certified environmentally conscious suppliers. Our suppliers are held to high standards of environmental responsibility, animal health & welfare, food safety and social responsibility.
- We have participated in the Save on Energy<sup>OM</sup> program to upgrade building infrastructure to more energy efficient options.
  - Upgraded lighting throughout our building to LED bulbs. This will save an estimated 37% of our electricity use on lighting.
  - Upgraded refrigeration equipment to be more energy efficient and added strip curtains to reduce air loss in walk-in coolers.
  - Installed equipment to better control our kitchen air extraction system, significantly increasing its efficiency. This will lead to significant reduction in electrical and gas use.
- Installed smart thermostats to better control our heating and cooling throughout our building. This is estimated to save from 4-7% of our combined electrical and gas use.
- Use of email versus printer materials.
- Donate leftover food to local charities.
- Advocate for the "Blue Box" program and recycle all of our paper, cardboard, tin, glass and plastic waste.
- Our paper source is certified by the Forest Stewardship Council (FSC) which guarantees that it is made from wood products that come from responsibly managed forest and verified recycled sources.
- Marigolds and Onions makes every effort to sell or recycle used equipment at the end of the product's life cycle.
- All staff at Marigolds and Onions use ceramic mugs and reusable plastic cups for hot and cold beverages consumed during work hours to cut down on waste.
- Deliveries are scheduled by area & time to maximize driving efficiency and minimize emissions. There is no idling policy with our vehicles.
